

PRODUCT INFORMATION

UNI-VENT® III

THE UNIVERSAL VENTILATION SYSTEM

Material is 2" wide with standard thickness of 1"

Use on any roof pitch from 2/12 to 20/12

Use any manufacturer's ridge cap

Stock one product to match any roof panel configuration

Thicker product available for R-Panel & other high rib configurations

Installation of Uni-Vent® II (& how it differs from Uni-Vent® III)

Uni-Vent® II will conform to virtually any roof panel configuration. It compresses and fills every void between your ridge cap and the roof panel. Factory applied glue strips allow the installer to roll out Uni-Vent® II, and **apply it to the roof panel**—even in windy conditions. **Then, any standard ridge cap can finish off the installation.**
