

# LABOR SAVER

*Re-roof with ease!*

## **Eliminate Tear-Off**

- Roll directly over shingles and install new metal panels on top of Labor Saver
- Creates an air gap that allows for air flow between old and new roofs

## **Lightweight & Strong**

- High density polyethylene foam is lightweight (10 lbs/box) yet durable

## **Easy Installation**

- 2 1/2" x 1/4" x 150' rolls can simply be rolled across your roof and tacked down

## **Eliminates Rot & Corrosion**

- Labor Saver will not corrode metal or shingled roofs

## **No Warped Wood Spacers**

- Wood furring strips can warp causing creased roof panels

## **Cost Effective**

- Material cost is comparable to wood strips, yet lighter & easier to store!
